

## **\*\*\* Road Construction Alert \*\*\***

**For Monday May 4th OVQG meeting**, please be advised that Preston Street is slated for major construction, starting April 29. It is unclear as to which section will be worked on first, however it appears that driving on Preston St. itself will pose some difficulties. Both St. Anthony's Soccer Club and the Preston St. Business Improvement Area organization ([www.prestonstreet.com](http://www.prestonstreet.com)) are suggesting that all members arrive via Gladstone. (Get off Queensway at Rochester. Drive north on Rochester, turn left (west) onto Gladstone, and turn left into the old High School of Commerce parking lot, (before you get to Preston) where there is plenty of parking. Once in the school's lot, you can also turn right after the soccer field and go west on the lane going to Preston St., and cross over to St. Anthony St. to get to the parking by the club. NB. The soccer club has told us their section of the street will not be started on yet, so hopefully access will be as usual.
